

## ALUMNI FAMILY WEEKEND COVID PREVENTION PROCEDURES BEFORE AND DURING REUNION!

***The most important thing you can do is to make sure that you and your family arrive at camp Covid free!*** This means that during the for the week prior to arriving at camp, you and members of your household need to abide by low-risk behaviors. What does low-risk behavior mean?

1. Stay within your household bubble;
2. Avoid contact with anyone outside of your household bubble except that which is mandatory for work or school;
3. No non-essential travel, and
4. Follow all the recommended non-pharmaceutical interventions (NPIs)—mask wearing, physical distancing, and handwashing.

Please *stay home* if you are exhibiting any Covid symptoms, or if you have had any exposure to someone experiencing symptoms. We will of course, refund your payment.

At camp, the following Covid-prevention measures will be in place:

- Vaccination: Everyone must be vaccinated. Two years old- 12 years old must be fully vaccinated; 13 and over must be up-to-date
- Proof of vaccination must be provided. If you did not upload your vaccine card when you registered, *please bring a copy of the card for you and any other guests you have registered with you to registration*;
- Testing before coming to campus: All members of your party must complete a Covid test (rapid antigen test or PCR) within 48 hours of arrival on campus and on the day you arrive at Keewaydin. You will sign off when you arrive at camp that you have tested 48-hours prior and on day of arrival.
- Masking: **All attendees must wear masks at all times when indoors, except when eating and drinking.**
- Dining: Families will sit together for meals during their entire stay at Keewaydin. Other guests/small groups/family members will form a group at their first meal and eat together for the duration of their stay at the Reunion. (This will allow us to reduce our Covid risks.... And allow us to sing after meals!)
